## AlignStar - The Choice of Professionals

**Prices starting at just \$1,500 per country**

TTG's **International Map Add-ons** bring new functionality to our highly acclaimed **AlignStar** software. Now you can map, design and optimize territories throughout

the world with all the functionality you have in the US. With International Map Add-ons installed, you can view any or all countries on the screen at one time. Pan and zoom across international boundaries, assign territories, optimize, create reports. You can turn individual countries on and off using the **Layers** tab controls or leave portions turned on using the controls in the **Hierarchy** tab. Most countries include the following map detail. Please call for specific layers available for each country.

- States (or equivalent)
- County, Province, District (or equivalent)
- Major City Points
- Major Highways
- Post Code areas (where available)

Many of our International map sets are provided by GfK GeoMarketing © 2010 GfK Geomarketing. All rights reserved.
