

# TTG Announces Free AlignStar® Training Classes

January 1, 2014 --TTG, Inc. today announced that it will begin offering FREE training classes to all active AlignStar Corporate and Enterprise license holders. The comprehensive FREE one-day training classes for AlignStar are offered monthly at TTG's training facility in Bedford, MA. Prior registration for the training classes is required.

TTG has offered training classes for the AlignStar software for many years but it was always an optional item available for an additional fee. When asked why it is now included for free, David Pinals, President and CEO of TTG, Inc. commented, "Service and support of our products has always been a primary focus for us. We pride ourselves on the level of service that we are able to provide. I firmly believe that our success depends on our client's success and this is another step toward ensuring that all of our clients know how to leverage our software to increase profits. It was an easy decision and it is a win for everyone."

Registration for the AlignStar training sessions will be available on TTG's AlignStar website beginning in January, 2014. The registration form can be found here:
